

## Helpful Hints

This online guide is a companion to the printed edition of *Seasons of a Chesapeake Bay Waterman: An Activity Guide for Teachers*.

You can download the entire contents of the Activity Guide or just section by section. Just click on the section headings to obtain the corresponding pages.

When you download a page, it will open a new window in your browser. That way, you won't lose your place in the table of contents.

Please note that some of the PDFs are several pages long. You can navigate from one page to another within each section via the arrows at the bottom of those PDF pages.

The pages are in Adobe Acrobat®, or PDF format. Most computers come with the Acrobat Reader® already loaded. If yours does not, you can obtain the reader free of charge from this website: <http://adobeacrobat-8.com>.
